Rosny Park
By the mid-1980s Rosny Park had developed into the administrative, retail and financial heart of the City of Clarence. Council chambers, the police station, library, major banks and large retailers are located in the area.

Richmond
Since earliest settlement in Tasmania, Richmond has been an agricultural centre and a rest stop for travellers. It is now one of Australia's most visited tourist destinations, boasting a large quantity of Georgian architecture.

Bellerive
Bellerive, meaning 'beautiful river bank' was named in 1832 and formerly known as Kangaroo Point. Until the construction of the floating bridge in 1943, Bellerive was the main embarkation point for people and goods travelling to Hobart. Produced August 07 by Clarence City Council as a community service. For further information contact us: (03) 62458600
