11.7 GOVERNANCE**11.7.1 HUON VALLEY COUNCIL - REQUEST TO AMEND THE STRLUS CYGNET GROWTH MANAGEMENT STRATEGY****EXECUTIVE SUMMARY****PURPOSE**

The purpose of this report is to consider a referral from the Huon Valley Council seeking council's endorsement for an amendment to the Southern Tasmania Regional Land Use Strategy (STRLUS) Growth Management Strategy for Cygnet.

RELATION TO PLANNING PROVISIONS

The entire Huon Valley municipality is outside of the area identified on the STRLUS Map 10: *The Residential Strategy for Greater Hobart – Residential Areas* and therefore is outside the mapped STRLUS Urban Growth Boundary.

Under the STRLUS, Cygnet is identified on Map 9: *Regional Settlement Strategy* as a "Township" (Page 99) and Table 3 (Page 89) prescribes a "moderate" Growth Strategy and "mixed" Growth Scenario.

LEGISLATIVE REQUIREMENTS

Nil.

CONSULTATION

In a letter dated 4 May 2021, the Huon Valley Council advised that at its meeting on 31 March 2021 it had resolved to seek an amendment to the STRLUS to modify the Cygnet Growth Management Strategy. They advised that the Minister for Planning requested that they seek endorsement from all councils within the southern region in the form of a council resolution.

RECOMMENDATION:

A. That the Minister for Planning be advised that:

1. Council does not oppose an amendment to the Southern Tasmania Regional Land Use Strategy's Growth Management Strategy for Cygnet because it is unlikely to have significant direct impacts on Clarence.
2. The requested amendment should be modified to clarify the residential expansion is limited to a defined area including 15 Louisa Street and Lot 1 Channel Highway and 7368 Channel Highway, Cygnet being the properties giving rise to the request for the amendment. This will provide clarity and is consistent with the previously approved approaches in Hobart, Sorell and Clarence.

3. Council is nevertheless concerned that continued ad hoc expansion of the Urban Growth Boundary, and the expansion of existing settlements in the case of this proposal, may adversely impact the sustainable development of the region, including the efficient and equitable supply of infrastructure and services. Accordingly, council requests urgent action by the State Government on the review of the Southern Tasmania Regional Land Use Strategy.

B. That the details and conclusions included in the Associated Report be recorded as the reasons for council's decision in respect of this matter.

Decision: **MOVED** Ald Mulder **SECONDED** Ald Edmunds

Kangaroo Bay Hotel and Hospitality School Development

1. At the open briefing in October 2020, Chambroad said that should UTAS not be able to proceed attempts would be made to find an alternative education provider. Will the planned briefing in June be confined to this issue and will it be an open briefing as the one that occurred in 2020?

ANSWER

I am not aware of the intentions of whether it is an open or a confidential briefing, but I can certainly ask Chambroad regarding their intentions on that front. In respect to the content of the discussion in June I understand it will be focussed around an education provider or what comes next after UTAS but may also propose other possibilities or at least seek to discuss those. In terms of details I have nothing further at this point.

2. Have there been any discussions about another use in the event that another provider cannot be found, and would any alternative use require a new sale and development agreement?

ANSWER

There has not been any detailed discussion of another use other than that was an issue that I was asked whether it would be appropriate to put to council and I certainly left the door open to that, I didn't see it as my place to say no. In terms of another sale and development agreement, the way that the current agreement is drafted the answer is yes on 2 counts: It is currently structured around a hotel and hospitality education facility and second is that it makes reference to a particular development permit so if there was a requirement to amend the development application that would be a further trigger.

Ald Peers

I know we all get a lot of comments about roadkill and I am wondering if somewhere we can do some trials on some of the equipment that may deter animals from crossing the road? I know when we attend conferences there are many things that they say will do the job I am just wondering if we could pick an area without going with heaps of money and just trial some things?

ANSWER

Taken on notice.

Council's officers are reviewing methods of reducing roadkill and will provide information to Aldermen through a future briefing report.

1. I understand that there has been a vote on the EBA that was narrowly passed. I just wonder if we could have a summary of some of the reasons people voted no?

ANSWER

I do not have any particular reasons but in my experience, it is not unusual to have close votes where there are slightly differing points of view, so I wasn't particularly surprised.

2. This morning on the ABC interview with the Mayor and Piia Wirsu the Mayor said regarding the Kangaroo Bay developer they may well have another provider in their back pocket. Have either the Mayor or the General Manager been in touch with any prospective providers?

ANSWER

(Mayor) Absolutely not from my point of view.

(General Manager) No.

(Mayor) Chambroad have indicated in our regular meetings with them that they may have or they are exploring but I am not aware of any particular outcome there at all.

Question contd

So obviously they would be as the developer but you two have not been in touch with prospective RTOs or training providers?

ANSWER

(Mayor) Absolutely correct

Ald James

1. Can we be provided with an update on the Boulevard Kangaroo Bay development and as to when there is going to be a development application lodged or will it require another workshop prior to a development application being lodged?

ANSWER

I understand that the development application is to be lodged in the near future and one of the issues is it will require landowner consent from me so that is effectively the trigger and I don't have a precise date. I know there are some details being worked through basically as a pre-cursor to formal lodgement. I am not completely sure of the timeline for that at this point, but I understand that it is imminent.

2. As we have been advised the public pier in Bellerive will soon be open to the public. It is my understanding that there is a ledge on the sea side of the pier which basically people can actually step over the fence and sit on that ledge or run along the ledge and there is that potential to fall into the water. Also what is concerning is that there are bench seats at certain intervals and any child could actually step up onto the bench and then just very gingerly step over that fence onto the ledge and therefore they haven't got the protection beyond that ledge. Now that ledge runs completely the full length of the pier. Has there been an occupational health and safety measure done on that and has there been any indication as to whether the fence needs to be heightened in order to prevent any possible mishap in relation to any person, young person or any other person for that matter stepping over the fence, fishing on that ledge or running on that ledge and therefore there may be some concern that the council may have to see as part of its policy of public liability cover. Has there been and perhaps my question is have there been any discussions in relation to this, has the matter been brought to council's attention and is there any means by which some measures are going to be done to make sure that this potential hazard is rectified?

ANSWER

Council's risk management group has assessed the matter and advised the proposed signage which states that "Persons using this facility do so at their own risk" is sufficient.
